

**SERVING THE IMPORT COMMUNITY SINCE 1980**

Our clients ship goods by air, water, train and road from all over the world and include worldwide manufacturers and importers of clothing, accessories and case goods, electronics and pharmaceuticals.

**Five Weeks' Grace Time**

U.S. Customs and the Customs/legal community have always stressed the importance of paying duties directly, not through a third party.

Genghis Khan has promoted that function since its inception, providing both security and two weeks' grace time for payment.

Now, with monthly statements available, we have provided all of our clients with the ability to enjoy payment – still direct – averaging five weeks. We also use the good judgment to clear goods arriving at the end of a month to allow our clients to enjoy seven rather than three weeks of grace time, if there's no conflict with urgent delivery dates.

**ISF/10+2**

We understand that nobody likes to see an increase in fees, yet the advent of the Importer Security Filing (ISF/10+2) has created the need for new data gathering and clerical input.

For those clients who are able to provide complete and timely data for their imports prior to the date of shipping, we are able to complete the ISF and entry processes with almost no additional clerical work – and when that can be done, we charge no additional fees.

In other words, if you can hunker down and get the cooperation of your suppliers and cargo agents, we can help you enjoy the benefit in real money.
